Anemos

Sculpted by the wind

DESIGN
Pio & Tito Toso, 2023

EN — Anemos is a table characterised by simple yet architectural shapes. Its distinctive feature lies in the base, composed by two separate aluminium shells secured to the top, that take on a flexible and sinuous shape through a double curvature. Versatile and adaptable, Anemos seamlessly fits into indoor and outdoor spaces.

IT — Anemos è un tavolo caratterizzato da forme semplici e architettoniche. Il tratto distintivo è la base, formata da due gusci in pressofusione di alluminio separati tra loro e fissati al ripiano che, grazie ad una doppia curvatura, assumono una forma flessibile e sinuosa. Anemos è un tavolo versatile e trasversale che si adatta perfettamente a spazi indoor e outdoor.

Arki-Desk

A perfect balance

DESIGN
Pedrali R&D, 2020

EN — The Arki-Desk's clean, linear design makes it particularly versatile and suitable for flexible and functional modern corporate and home offices. Steel or solid oak trestle legs are connected together by a steel support, to which the top is fixed for added stability. A more casual and playful version of the Arki-Desk with a coloured frame is also available.

IT — Arki-Desk è un tavolo che, grazie alla sua semplicità, risulta molto versatile, massimizzando la sua capacità di rispondere alle esigenze di flessibilità e funzionalità degli uffici moderni e home office. Le gambe a cavalletto, realizzate in acciaio o in massello di rovere, si collegano ad una traversa in acciaio, alla quale viene fissato il ripiano, garantendo stabilità e aderenza al suolo. Il telaio può essere colorato, rendendo Arki-Desk più informale e giocoso.

Toa

Strength and lightness

DESIGN

Robin Rizzini, 2020

EN — The Toa table combines a technical-industrial style with decorative allure, giving life to a functional and evocative product. Lightweight and minimalist, the Toa table is characterised by a solid die-cast aluminium frame in a fluid geometric design connected by two steel beams suitable to support large sizes tops.

Toa's main features are its tapered bridge legs made of die-cast aluminium, which are thinner at the base and widen up towards the “T” element that supports the top.

IT — Toa è un tavolo che unisce con equilibrio il linguaggio tecnico-industriale a quello decorativo, dando vita ad un prodotto funzionale ed espressivo. Leggero ed essenziale alla vista, il tavolo Toa è caratterizzato da una robusta struttura in pressofusione di alluminio dalla forma geometrica e fluida supportata da due barre in acciaio capaci di sostenere anche ripiani di grandi dimensioni. Elemento caratterizzante di Toa sono le gambe a ponte dalla forma affusolata realizzate in pressofusione di alluminio che, più sottili alla base, si allargano verso l'alto confluendo sotto al ripiano in un elemento a “T”.

Rizz

Streamlined fluidity

DESIGN
Robin Rizzini, 2023

EN — Rizz is a table with an aluminium frame that ensures strength and lightness at the same time. The diecast aluminium legs are featured by a triangular section that faces outwards and tapers into a round shape, resting elegantly on the floor. A structural strength concealed by clean lines distinguishes this table, which integrates the legs with an aluminium supporting frame hidden beneath the tabletop. The workstation version is a system of two-, four- or eight-seater workstations. For longer meeting or working tables, a central rectangular steel column with rounded edges ensures stability while serving as cable management.

IT — Rizz è un tavolo in alluminio che garantisce resistenza e leggerezza al tempo stesso. Le gambe affusolate in pressofusione di alluminio sono caratterizzate da una sezione triangolare aperta verso l'esterno e si assottigliano in una sezione tonda appoggiandosi elegantemente a terra. Una solidità strutturale celata da una pulizia di forme caratterizza questo tavolo, che integra le gambe ad una struttura portante nascosta sotto il ripiano. La versione workstation è un sistema a due, quattro o otto postazioni. Per sostenere ripiani di grandi dimensioni, nella parte centrale al di sotto del ripiano, è presente una colonna rettangolare con angoli stondati in acciaio che funge anche da passacavi.

Elinor

A classy hug

DESIGN
Claudio Bellini, 2019

EN — The Elinor collection of tables brings to mind the soft, curving lines of the namesake executive chair springing from a new perception of space and conveying a refined yet contemporary image. The base is formed of two moulded elements of fixed dimensions, made from rigid polyurethane foam and upholstered in genuine leather; they support a table top in ultra-thin solid laminate, with rounded lacquered MDF support beneath it which conceals the steel structure.

IT — La collezione di tavoli Elinor riprende le linee morbide e sinuose della poltrona direzionale omonima proponendo una nuova percezione dello spazio e trasmettendo un'immagine raffinata e contemporanea. Una base costituita da due elementi sagomati di dimensione fissa realizzati in poliuretano rigido e rivestiti in pelle sostengono un ripiano in stratificato ultrasottile attraverso un sottopiano in MDF laccato dalla forma bombata, che nasconde la parte strutturale in acciaio.

Aero

Pure stability

DESIGN

Daniele Lo Scalzo Moscheri, 2007

EN — Aero is a stady table with generous dimensions, simple in appearance but with a great character. A glossy lacquered steel cover splitted in two shells hides a central square or rectangular base with rounded corners.

The top, available in different finishes, is elegant and refined.

IT — Aero è un tavolo stabile e dalle dimensioni importanti, semplice all'apparenza e dal carattere forte. Un rivestimento in acciaio laccato lucido suddiviso in due gusci cela una base centrale di forma quadrata o rettangolare smussata agli angoli.

Il ripiano, disponibile in diverse finiture, risulta elegante e raffinato.

Frank

Architectural illusion

DESIGN
Robin Rizzini, 2023

EN — Frank is a table inspired by architectural shapes and industrial materials. The structure on which the top rests is made up of two slightly curved die-cast aluminium bases with variable thickness. Seen from the front they are slightly arched and resemble the shape of a sail, creating a light and ethereal optical effect. Seen from the side, the volume appears full. Together, rational lines and curves contribute to conveying an image of lightness and contemporaneity.

IT — Frank è un tavolo ispirato da forme architettoniche e materiali industriali. La struttura su cui appoggia il ripiano è composta da due basi in pressofusione di alluminio dallo spessore variabile leggermente curvate. Viste frontalmente richiamano la forma di una vela che, leggermente inarcate creano un effetto ottico leggero ed etereo. Osservate lateralmente il loro volume appare pieno. Linee razionali e curve insieme contribuiscono a trasmettere un'immagine di leggerezza e contemporaneità al tempo stesso.

Malmö

Nordic essence

DESIGN

Cazzaniga Mandelli Pagliarulo, 2012

EN — Malmö tables evoke domestic warmth sensations thanks to the touch of ash wood, their peculiar shapes and the appeal to tradition imagery. Designed to fit in convivial spaces, these tables have tops in veneered ash wood, HPL solid laminate or lacquered MDF, combined with tapered solid ash wood legs.

IT — I tavoli Malmö sono in grado di esprimere una sensazione di tepore domestico grazie al piacere tattile del frassino, all'espressività delle forme e all'affinità con un immaginario tradizionale. Pensati per essere collocati in luoghi conviviali, presentano un ripiano realizzato in frassino impiallacciato, stratificato o MDF laccato, e gambe in massello di frassino tornite.

Caementum

The importance of the material

DESIGN
Marco Merendi & Diego Vencato, 2021

EN — Caementum is a monoblock concrete table specifically designed for outdoor use. Through the addition of carefully selected additives, this highly resistant material guarantees excellent technical performance, including ease of cleaning, greater resistance to mechanical stresses and weathering, and low permeability to liquids and stains. The surface of the base features the material's typical blowholes, while the top is completely smooth.

IT — Caementum è un tavolino monoblocco realizzato in cemento pensato specificatamente per l'outdoor. Un materiale resistente che, grazie all'aggiunta di additivi accuratamente selezionati, garantisce ottime prestazioni tecniche, tra cui una facile pulizia, una maggiore resistenza meccanica e agli agenti atmosferici, oltre che consentirgli di non assorbire liquidi e di non macchiarsi. La superficie della base è caratterizzata dalle soffiature tipiche del materiale mentre il ripiano è completamente liscio.

Elliot

Just like a dancer

DESIGN
Patrick Jouin, 2018

EN — With its elegant silhouette and minimal design, Elliot table has a strong identity that combines soft lines with sinuous natural forms. The three or four-lobed column in extruded aluminium narrows down and splits open to form three or four feet in die-cast aluminium, which elegantly sit on the floor.

IT — Un tavolo dalla silhouette elegante e dalle forme delicate e slanciate. Elliot ha una forte identità, unendo la morbidezza delle linee alla fluidità delle forme. La colonna in estruso di alluminio di forma trilobata o quadrilobata si separa, assottigliandosi, in tre o quattro piedini in pressofusione di alluminio che appoggiano delicatamente a terra.

Fluxo

Stability roots

DESIGN
Luca Casini, 2018

EN — Fluxo uses primary geometric shapes, starting from the section of its stem-like base, to generate a form with clean and minimalist lines. Made in die-cast aluminium, Fluxo has a stable structure and a distinctive personality, with a subtle and elegant design.

IT — Fluxo sviluppa geometrie primarie partendo dalla sezione dello stelo per generare una forma essenziale e minimalista, ma riconoscibile. Realizzato in pressofusione di alluminio, Fluxo ha una struttura resistente e una connotazione decisa, conservandone il tratto discreto ed elegante.

Lightness architecture

DESIGN

Pio e Tito Toso, 2016

EN — Lunar table speaks the language of lightness and transparency, allowing the architecture of the surrounding environment to emerge. The base is the result of the union of four steel rod trapeziums and it can be combined with tops in different sizes and finishes.

Concrete

Natural stability

DESIGN
Pio e Tito Toso, 2015

EN — The base of a table must have a significant weight to guarantee stability and durability. The result of this simple reasoning is Concrete, an outdoor table with a concrete base that uses the main features of the material in a natural and intelligent way.

IT — La base di un tavolo deve avere un certo peso per garantire stabilità e durabilità. Da questo semplice ragionamento nasce Concrete, un tavolo da esterno con base in cemento che utilizza le caratteristiche proprie del materiale in modo naturale e intelligente.

Stylus

Fine shapes

DESIGN
Pedrali R&D, 2010

EN — The tables of Stylus collection perfectly fit in contract spaces. A harmony of curved lines characterises the table's components: the base, the top and the supporting plate. The slim central column rises from the round or square flat base with rounded corners, with soft and clean shapes.

IT — I tavoli della collezione Stylus sono pensati per gli ambienti contract. Un'armonia di linee curve anima questo tavolo in tutte le componenti: la base, il ripiano e la piastra che lo supporta. La sottile colonna centrale emerge dalla base tonda o quadrata dagli angoli raggiati, con forme morbide e pulite.
